

Mrs. William H. Hume

Virginia

February 11, 2001

Dear Belle,

I do apologize in taking so long to write. I was really brought up with bitter manners! You were so nice to send me the moistureizer. I really appreciate your thought. It would be an absolute disaster to ever run out. The Trio is what I use daily. I don't use the make-up every day - only when I go out or have company. Frank Hollingsworth was very nice to give me the distributor discount even though I haven't been active since the 70's so I don't expect you to continue it under your new program. I will be 79 next week and really don't have the energy to be active. I am busy all the time and have no help except outside in the summer. I really feel "over the hill" at times. I don't enjoy shopping anymore. Everything I like is discontinued or out of style! But I am so delighted that I don't have to worry about Quatex!
