Dear Bob and Annie:

In your latest Newsletter, you indicated that you would like to hear from people who have used Ovation products for a long time. Since I qualify, I thought I would drop you a note.

In 1962, my parents, Jack & Dotty Nystrom, learned about Ovation Cosmetics and became two of the earliest full-time Distributors of the products from their home in Vista, California. At the time I was 15, and because of their participation with Ovation, I was introduced to the products and became the fortunate recipient of long-lasting lessons in skin care.

For more than **40 years** I have faithfully ordered Cleanser, Freshener and Moisturizer. Even when I lived in Mazatlan, Mexico for three years, my supply was not interrupted, as my product was sent to a U.S. address, then was hand-delivered by a friend who made frequent trips between Mazatlan and San Diego, California.

On May 1st I will be 57 years old. The attached photos will confirm that using Ovation Skin Care Products for over 40 years has resulted in my skin looking many years younger than my actual chronological age! It is the most essential product in my cabinet, and I will never be without my Ovation Products.

Many thanks,

Patty Smith
